

EAGLE RIVER CHAIN OF LAKES – EAGLE RIVER, WISCONSIN

CHALET VISTA

Beautiful private home located on the famous Eagle River Chain. Relax and admire the splendor of the Northwoods in this 3 bedroom/2 bath home.

This home provides a private dock, 2 decks, screened 3 season room & water front campfire pit. The Chalet Vista has something for everyone in the family.

In history, Eagle River Wisconsin has been considered a "hotbed for action" by fishermen of all species. With it's 1327 lakes, 73 rivers and streams, nowhere in the world are there as many lakes in the same amount of land mass. Located in the northeast section of the great Northwoods, Eagle River boasts absolutely the best fishing in northern Wisconsin, offering world class musky, walleye, bass and trout stream fishing.

The Eagle River Chain of Lakes is the largest in-land chain in the world, with 28 interconnecting lakes that stretch 14 miles north to south, as the crow flies. Adversely as one would think, the water flows north and eventually dumps into the great Mississippi and the Gulf of Mexico.
